1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Braitberg et al (Pat. No. 5,479,479) or Wood (Pat. No. 6,007,372).

Braitberg et al teach a global positioning system (GPS) transceiver including a GPS receiver 284 having a coupler (276; col 19, lines 37-42) and a transmitter (200; col 19, lines 37-42), wherein the transmitter is detachably coupled to the GPS receiver via the coupler, and the GPS receiver 284 is used to receive data from a satellite to acquire data related to the longitude and latitude of its location, and the transmitter (200; col 19, lines 37-42) is used to output the data related to the longitude and latitude of its location.

Wood teaches a global positioning system (GPS) transceiver including a GPS receiver 2 having a coupler 21 and a transmitter (fig. 1B and 1C; col 3, lines 60-62; col 4, lines 7-18), wherein the transmitter is detachably coupled to the GPS receiver via the coupler, and the GPS receiver 2 is used to receive data from a satellite to acquire data related to the longitude and latitude of its location, and the transmitter is used to output the data related to the longitude and latitude of its location.

Art Unit: 3662

3. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Hilliard (US 2003/0132846).

Hilliard teach a global positioning system (GPS) transceiver including a GPS receiver having a coupler and a transmitter, wherein the transmitter is detachably coupled to the GPS receiver via the coupler, and the GPS receiver is used to receive data from a satellite to acquire data related to the longitude and latitude of its location, and the transmitter is used to output the data related to the longitude and latitude of its location. See paragraph 0026+.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
